

NIRU KUMAVAT

Aspiring Python Developer | Skilled in Python, Django & Data Analysis

📞 7383672406 ✉ nirukumawat2464@gmail.com 🔗 <https://github.com/NiruKumawat>
🌐 <https://www.linkedin.com/in/niru-kumavat> 📍 Anand, India

SUMMARY

Python Developer specializing in backend development, REST API design, and database-driven applications. Experienced in building real-world web solutions using Django and modern frameworks, with strong skills in SQL, MongoDB, and full-stack development. Proficient in developing scalable applications, integrating APIs, and working with structured data.

WORK EXPERIENCE

Full Stack Developer Intern - Evol Technobits Digital Pvt.Ltd
Vadodara | Feb 2026 - Present

EDUCATION

 **MCA**
CHARUSAT University
Changa
Pursuing

 **Bachelor of Science**
M.B.Patel Science College,SPU
Anand
2021 - 2024

CGPA
8.47 /10

CERTIFICATES

- Generative AI for Everyone (Coursera)
- AngularBasics (Simplilearn)
- SQL for Data Science (Coursera)
- Introduction to MongoDB, CRUD Operations (MongoDB University)
- Python for Data Science, AI & Development (Coursera)
- Python for Data Analysis: Pandas & NumPy (Coursera)
- Finishing School Certificate – Workplace readiness, aptitude, and soft skills training

PROJECTS

- **Book Recommendation App (Django, Python, SQLite)** : Personalized book recommendations with authentication and favorites.
- **Job Portal System (Django, SQLite)** : Job listings and application system with Django ORM.
- **Task Automation Platform (Django REST, AngularJS)** : Developed a workflow-based automation system where actions are executed automatically based on defined triggers.
- **Syntax Academy (Django, SQLite)** : Built an e-learning platform with user authentication, course management, and dynamic content delivery.
- **Expense Analysis (Python, Pandas, NumPy)** : Built a system to track and analyze expenses with category-wise insights and summaries.

STRENGTHS

- **QuickLearner** – Rapidly adapt to new tools and concepts.
- **Problem Solver** – Efficient at debugging code and optimizing backend logic.
- **Team Collaboration** – Successfully worked with teams on multiple academic and personal projects.
- **Self-Motivated** – Proactively completed Python courses and built personal projects.
- **Strong Communication** – Able to explain technical ideas to both technical and non-technical people.
- **Analytical Thinking** – Skilled in breaking down complex problems and identifying practical solutions.

LANGUAGES

- English - Proficient
- Hindi - Proficient
- Gujarati - Native

SKILLS

- **DataAnalysis, AI/ML & Databases:** SQL, Python, Data Cleaning, Data Preprocessing, EDA, Machine Learning Fundamentals (Regression, Classification, Clustering), Jupyter Notebook, MySQL, MongoDB, NumPy, Pandas
- **Backend & Web Development:** Python, Django, REST APIs, MVC Architecture, Full-Stack Development
- **Development & Tools:** Git, GitHub, HTML, Object Oriented Programming (OOP)
- **AI Tools & Productivity:** ChatGPT, Gemini, GitHub Copilot, Antigravity
